Press Release

Hexaware Recognized by ISG as a Market Leader in the UK & US for SAP Services

Mumbai, India – Aug 13th, 2020 – Hexaware Technologies, one of the fastest growing next-generation providers of IT, BPO and Consulting Services, today announced it has been recognized as a US and UK market leader in the ISG Provider Lens™ SAP HANA and Leonardo Ecosystem Partners Report recently published by Information Services Group (ISG), a leading global technology research and advisory firm.

Hexaware was recognized as a leader in the SAP S/4 HANA System Transformation – Midmarket quadrant in the U.S. and U.K., and a leader in Managed Application Services for the SAP ERP quadrant in the U.K.

“Leading SAP service partners are helping customers manage their SAP installations and upgrade to S/4 HANA, which offers superior performance,” said Jan Erik Aase, director and global leader, ISG Provider Lens Research. “The top SAP partner companies provide differentiated enterprise client services and deliver the best results from S/4 HANA investments. By working with the best partners to meet their requirements, clients can optimize their operating expenses and achieve a superior return on technology investments.”

The ISG report noted that Hexaware delivers business driven, outcome-based cloud migration with minimized risks delivering future-state architecture aligned with business solutions. For mid-market customers in the U.S. that are on an SAP transformation journey, Hexaware leverages its Triadic framework along with other tools, accelerators and industry-focused templates to accelerate the S/4 HANA business modernization and landscape transformation journey.

Not limited to the U.S. market, Hexaware’s SAP migration framework and delivery methodology, its automation-led approach and outcome-based pricing also enable the company to deliver realizable benefits to its clients in the U.K.

Prasan Prabhakaran, SVP, Global Head, Enterprise Solutions, Hexaware, commented, “We view this as a recognition of our excellence in accelerating our Client’s Business Transformation Needs. Our Investments in Platforms and Frameworks such as Triadic have ensured that our customers choose the right Cloudification Approach for S/4 Transformations. With our strong thrust in innovation, automation, next-gen managed services and flexible pricing models, we are geared towards offering the best of value for our clients in their digital journey.”

The ISG Provider Lens Quadrant report series draws insights on service provider capabilities from focused surveys, briefings, interviews with providers, input from ISG advisors, ISG benchmarking data, and data drawn from the ISG Contracts Knowledgebase™ and ISG Engagement Database™. The series is a complement to the ISG Provider Lens Archetype reports, which offer a first-of-its-kind evaluation of providers from the perspective of specific buyer types.
About Hexaware
Hexaware is the fastest growing next-generation provider of IT, BPO and consulting services. Our focus lies on taking a leadership position in helping our clients attain customer intimacy as their competitive advantage. Our digital offerings have helped our clients achieve operational excellence and customer delight by ‘Powering Man Machine Collaboration.’ We are now on a journey of metamorphosing the experiences of our customer’s customers by leveraging our industry-leading delivery and execution model, built around the strategy—‘AUTOMATE EVERYTHING™, CLOUDIFY EVERYTHING™, TRANSFORM CUSTOMER EXPERIENCES™.’ We serve customers in Banking, Financial Services, Capital Markets, Healthcare, Insurance, Manufacturing, Retail, Education, Telecom, Hi-Tech & Professional Services (Tax, Audit, Accounting and Legal), Travel, Transportation and Logistics. We deliver highly evolved services in Rapid Application prototyping, development and deployment; Build, Migrate and Run Cloud solutions; Automation-based Application support; Enterprise Solutions for digitizing the back-office; Customer Experience Transformation; Business Intelligence & Analytics; Digital Assurance (Testing); Infrastructure Management Services; and Business Process Services.

Hexaware services customers in over two dozen languages, from every major time zone and every major regulatory zone. Our goal is to be the first IT services company in the world to have a 50% digital workforce. Learn more about Hexaware at http://www.hexaware.com.
