Gunjan Methi
Company Secretary
Hexaware scores a hat-trick with Whitelane’s IT Sourcing Study
Among the Top Service Providers

- **Hexaware ranks number one** in KPIs across cloud capability, account management quality, business understanding, and contractual flexibility; and stands on number two position in service delivery quality, price level, and innovation
- **Hexaware achieves the second highest level of satisfaction in the IT Services industry**, scoring 79% in Service Provider satisfaction
- **The company ranks number two in Service Provider satisfaction in IT domain under application development, maintenance, and testing services**

**Mumbai, June 25, 2020** – Hexaware Technologies Limited, a leading global provider of Application, Infrastructure, BPS and Digital services announced that it ranked number two in overall customer satisfaction, in the 2020 UK IT Sourcing Study conducted by Whitelane Research.

In this annual study, over 250 participants of the top IT spending organisations in the United Kingdom evaluated over 550 unique IT sourcing relationships. 29 IT service providers have been evaluated and ranked based on the opinion of their clients. Having at least 8 client evaluations for general satisfaction and at least 7 client evaluations for application, infrastructure, telecom and end-user rankings was a mandate to be considered for this inclusion.

Hexaware received an overall customer satisfaction score of 79% and is placed on the second position. Hexaware has satisfied customers in application development, maintenance, testing, and has been rated in the second place in the category, against traditional service providers.

The company is positioned well above industry average on several Key Performance Indices (KPI), as per the study. It holds the top spot for various KPIs like cloud capability, account management quality, business understanding, and contractual flexibility and holds the second spot in service delivery quality, price level, and innovation. Apart from these, the company shows satisfactory results in the areas of proactivity and transformation quality. The company’s ability of understanding business requirements fetched it the highest score of 80%. From a contractual flexibility and account management quality perspective, Hexaware ranked first, with a customer satisfaction score of 84% and for cloud capability, Hexaware scored 85%.

“We are yet again grateful to our customers in the UK who have for the fourth year running, placed the highest level of confidence, trust and satisfaction in our services to them.” said **Amrinder Singh- Senior Vice President Europe Operations, Hexaware Technologies**. “We are very proud of being rated amongst the Top 2 UK service providers for 4 years running. Our top ranking is proof of our relentless focus on each of our customer engagements and our ability to provide truly transformational solutions for the digital world.”
Hexaware has a strong UK presence with its offices in Poland, UK, Germany, Russia, Netherlands and Belgium. The company’s local presence has helped it serve top-notch customers across these regions.

The IT Sourcing Study 2020 UK is a part of Whitelane’s annual extensive study on IT sourcing and IT service providers’ performance in the United Kingdom. Whitelane research is an independent organisation uniquely focused on and dedicated to (out) sourcing research and events. The study positions key IT service providers based on varied key performance indicators and is considered to be one of the most representative and reliable reports on the outsourcing market.

About Hexaware:
