Notes on segment information

The Company has identified business segment as the primary segment. Business segments have been identified taking into account the services offered to customers globally operating in different industry segments, differing risks and returns, the organizational and the internal reporting systems. Consequently, the internal reorganization, effective from 1st January, 2015, the Company has reigned the segment disclosure to reflect such reorganization. The previous period / year's figures are also restated to conform to the current periods classification.

Segmental capital employed

Assets and liabilities contracted have not been identified to any of the reportable segments as the assets are used interchangably between segments and it is not practicable to reasonably allocate the liabilities to individual segments. Accordingly no disclosure relating to segment assets and segment liabilities are made.
