Independent Auditor’s Report

To the Board of Directors of Hexaware Technologies Nordic AB

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of Hexaware Technologies Nordic AB ("the Company"), which comprise the balance sheet as at 31st December, 2017 and the statement of changes in equity for the period ended on that date and a summary of the significant accounting policies and other explanatory information.

Management’s Responsibility for the Ind AS Financial Statements

The Company’s Board of Directors is responsible for the preparation and presentation of these Ind AS financial statements that give a true and fair view of the financial position and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) Financial Reporting as specified under section 133 of the Companies Act, 2013 ("the Act") read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company’s preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company’s Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31st December, 2017 and the changes in equity for the year ended on that date.

1 Corporate Information

Hexaware Technologies Nordic AB, incorporated on 7th September 2017 under the laws of Sweden, is a subsidiary of Hexaware Technologies Limited, India. These Financial Statement have been prepared & audited for purpose of consolidation with the holding company, The Company is engaged in information technology consulting, software development and business process management. Hexaware provides multiple service offerings to its clients across various industries encompassing travel, transportation, hospitality, logistics, banking, financial services, insurance, healthcare, manufacturing, consumer and services. The various service offerings comprise application development and management, enterprise package solutions, infrastructure management, business intelligence and analytics, business process, digital assurance and independent testing.

2 Significant Accounting Policies

2.1 Statement of compliance

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as "Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 with effect from its date of incorporation.

2.2 Basis of Preparation

These financial statements are prepared on historical cost basis, except for certain financial instruments which are measured at fair value and to the extent possible in a manner consistent with that adopted by the holding company for its separate financials.

2.3 Critical accounting judgements and key source of estimation uncertainty

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of revenue, expense, assets and liabilities and disclosable information on the financial statements. Actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

Key source of estimation uncertainty which may cause material adjustments:

2.3.1 Revenue recognition

The company uses the percentage-of-completion method in accounting for its fixed price contracts. Use of the percentage of completion method requires the company to estimate the efforts expended to date as a proportion of the total efforts to be expended. Efforts expected have been used to measure progress towards completion as there is a direct relationship between input and productivity. Previsions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date and can be reasonable estimated.

2.3.2 Others

Others areas involving estimates relates to provision for doubtful debts, and useful lives of Property Plant & Equipment.

2.4 Revenue Recognition

Revenue is measured at fair value of consideration received or receivable.

Revenue from software solutions and consulting services are recognized on specified terms of contract. In case of contract on time and material basis, revenue is recognized when the related services are performed.

In case of fixed price contracts, revenue is recognized using percentage of completion method. The Company uses the efforts expended to date as a proportion of the total efforts to be expended as a basis to measure the degree of completion. The cumulative impact of any revision in estimates of the percentage of work completed is reflected in the year in which the change becomes known. Provisions for estimated losses on such engagements are made during the year in which a loss becomes probable and can be reasonably estimated.

Amount received or billed in advance of services being provided are recorded as unearned revenue.

Unbilled services represents revenue recognized based on services performed in advance of billing in accordance with contract terms.

Revenue from business process management arises from fixed price contracts, time based contracts and cost based projects. Such revenue is recognized on completion of the related services. It is billed in accordance with the specific terms of the contract with the client.

Revenue is reported net of discount and indirect taxes.

2.5 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessor. All other leases are classified as operating leases.

a) Finance Lease

Assets taken on finance lease are capitalised at lower of present value of the minimum lease payments and the fair value and liability is recognised for an equivalent amount. Lease payments are apportioned between finance charge and reduction in outstanding liability so as to achieve a constant rate of interest on the remaining balance of liability.

b) Operating Leases

Assets taken on lease under which all risks and rewards of ownership are effectively retained by the lessee are classified as operating lease. Lease payments under operating leases are recognised as expenses on straight line basis over the lease term unless the payment to the lessor is structured to increase in line with expected general inflation.

2.6 (a) Functional and presentation currency

The local accounts are maintained in local and functional currency, which is Swedish Kroner (SEK)

(b) Foreign currency

Transactions in foreign currency are recorded at the original rate of exchange in force at the time transactions are effected. Monetary items denominated in foreign currency are translated using the exchange rate prevailing on the date of the Balance Sheet. The resulting exchange differences are recognised in the profit or loss except exchange differences on transactions entered into in order to hedge certain foreign currency risk.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date of the Balance Sheet. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

2.7 Borrowing Cost

Borrowing cost directly attributable to the acquisition or construction of qualifying assets is capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised in the profit or loss.
2.8 Employee Benefits

a) Post-employment benefits and other long term benefit plan
Payments to defined contribution retirement schemes viz. contribution to the Federal pension plans are expensed as incurred.

b) Short term employee benefit
The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the period when the employee renders those services. These benefits include compensated absences such as leave expected to be availed within a year, statutory employee profit sharing and bonus payable.

2.9 Taxes on income
Income tax expense comprises of current tax and deferred tax. Current and deferred tax are recognised in net income, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax is measured at the amount expected to be paid or recovered from the domestic and overseas tax authorities using enacted or substantively enacted tax rates.

Deferred taxes are recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax assets and liabilities are not recognised when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects either accounting or taxable profit at the time of the transaction.

Advance taxes and provisions for current income taxes as well as deferred tax assets and liabilities are presented in the statement of financial position after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction and where the entity intends to settle the asset and liability on a net basis.

2.10 Property, plant and equipment (PPE)
PPE are stated at cost of acquisition less accumulated depreciation (other than freehold land) and impairment loss, if any.

Depreciation
Depreciation is provided on straight-line method based on the estimated useful lives of the assets as follows:

<table>
<thead>
<tr>
<th>Asset Class</th>
<th>Estimated useful Life</th>
</tr>
</thead>
<tbody>
<tr>
<td>Computer Systems (including in Plant and Machinery)</td>
<td>3 years</td>
</tr>
<tr>
<td>Office Equipment</td>
<td>5 years</td>
</tr>
<tr>
<td>Furniture and Fixtures</td>
<td>8 years</td>
</tr>
</tbody>
</table>

Depreciation methods, estimated useful lives and residual values are reviewed at the end of each year and adjusted prospectively where appropriate.

Any gain or loss arising on derecognition is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognised in profit or loss.

2.11 Impairment

a) Financial assets (other than at fair value)
The Company assesses at each balance sheet date, whether a financial asset or a Company of financial assets is impaired, Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and/or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

b) Non-financial assets - Tangible assets
At the end of each reporting period, the Company assesses whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs or allocated. Impairment loss is charged to the profit or loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

2.12 Provisions
Provisions are recognised when the Company has present obligation (legal or constructive) as a result of a past event for which reliable estimate can be made of the amount of obligation and it is probable that the Company will be required to settle the obligation. When a provision is measured using cash flows estimated to settle the present obligation its carrying amount is the present value of those cash flows; unless the effect of time value of money is immaterial.
2.13 Non derivative financial instruments
Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

Financial assets and financial liabilities – subsequent measurement
(i) Financial assets at amortised cost
Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income
Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss
Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognised in statement of profit and loss.
Cash and cash equivalents
The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

Financial liabilities
Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method.
Share capital
Equity shares
Incremental costs directly attributable to the issue of equity shares, net of any tax effects, are recognised as a deduction from equity.
3 Equity Share Capital

3.1 Authorised capital

2000 Equity shares of SEK 100/- each
